

- LEGEND**
- Towered airport with hard-surfaced runways greater than 8,069 feet long
 - Towered airport with hard-surfaced runways 1,500 and 8,069 feet long
 - Other towered airport
 - Nontowered airport with hard-surfaced runways greater than 8,069 feet long
 - Nontowered airport with hard-surfaced runways 1,500 and 8,069 feet long
 - Other nontowered airport
 - Nondirectional radio beacon
 - Very high frequency omnidirectional range/tactical air navigation (VORTAC) facility
 - Class B airspace boundary
 - Class C airspace boundary
 - Class D airspace boundary
 - Class E airspace boundary
 - Class E airspace with floor 700 feet above surface
 - Class E airspace with floor 1,200 feet or greater above surface that abuts Class G airspace
 - Victor airways
 - Restricted area boundary
 - Military operations area boundary
 - Special airport traffic areas
